Anyone entering Kyneton from the freeway onto Bourke Street will have seen that significant progress has been made on Cobaw Community Health's new building since construction started in May.

The concrete slab has now been poured and with the arrival of the steel walls, the structure will begin to take shape over the coming weeks.

Details of the design can be found on Cobaw's website: www.cobaw.org.au.

Antique & Vintage Fair

This year's Kyneton Antique and Vintage Fair will be held in the Kyneton Town Hall from Fri 30 Aug to Sun 1 Sept.

Festival Royals announced

Local couple Jenny and Richard Wyatt are this year's Kyneton Daffodil & Arts Festival Queen and King.

Now living in Malmsbury the Wyatts have lived in the area for 48 years, and have been active in community life in the region.

Richard as a member of the Kyneton's Zetland Masonic Lodge has worked to supply School Bursaries to local schools over a number of years. He has recently joined Kyneton Lions but has helped them in their community work for many years. A marine engineer for 40 years Richard has travelled and worked throughout the world, mainly for the Australian National Line.

Jenny, who has had a career in nursing, is the daughter of Doug Featherstone former Vice Principal of Kyneton Primary. Jenny nursed in Williamstown and worked at the Mercy Hospital and later at the Gisborne Bush Nursing Hospital.

Community minded Jenny is the newly elected President of Lions. In this role she is keen to co-ordinate with other community groups. Whilst living at Woodend she was a guide leader and was involved in the schools.

Both Jenny and Richard are members of the Spring Hill CFA and Richard has been Santa for various local brigades. They have raised a family of five children and have eleven grandchildren.

Crowning of the Daffodil Royals will take place at 11am on Sat 24 Aug at the Kyneton Mechanics Institute.

Further engagement on Study

At its July Meeting the Macedon Ranges Shire Council, following two months of community consultation on the controversial Kyneton Movement Network Study noted the work undertaken to date and directed officers to review the Study taking into account community feedback received and to undertake further targeted stakeholder and community consultation.

Kyneton Connections, the CFA and Kyneton District Health Service were specifically listed as bodies to be consulted.

Speed humps proposed for Edgecombe, Pohlman, Ebdon, Bodkin and Begg Sts, proposals for one way streets, especially Ebdon St in which the Fire Station is located and a proposal for a new ramp for northbound traffic onto the Calder Freeway were among the issues that drew criticism.

At the June Council meeting the speed humps proposed for Begg and Bodkin Sts had been withdrawn from the 2019/20 budget pending the outcome of the Movement Study.

The one way streets proposal was strongly opposed in submissions from the community.

Kyneton Connections President Eric Dearricott said his organisation welcomed further work being done on the Study and hoped that significant further local community consultation would occur so that the final plan would truly reflect Kyneton residents' aspirations and needs.

All staff give Gabrielle clear instructions to follow but they understand she may make mistakes. Gabrielle is never judged by the staff at the cafe they embrace her differences and love her character.

Gabrielle loves this little job and is happy and proud to tell people that she volunteers at Home Grown on Piper.

RV disposal point relocation

The free recreational vehicle disposal point in Kyneton will be updated and relocated in coming months.

The disposal point allows recreational vehicles (RVs) to empty their grey water and black water tanks. It is currently at Kyneton Mineral Springs and is attached to a holding tank, which has limited capacity.

Council will relocate the disposal point to the side of the public toilets in Bourke Street, Kyneton. The new arrangements will allow the grey and black water to be emptied into a disposal point connected to the sewerage system.

There is designated short-term parking for RVs at this site, as it is close to the Kyneton Visitor Information Centre.

Carlsruhe CFA 60 years

Sunday 28 July marked the 60th anniversary of the Carlsruhe Fire Brigade and the celebrations began with the ceremonial turning of the first sod of soil at the site of the Brigade's new station (corner of Cobb & Co and Springvale Roads Carlsruhe).

In 1959 the brigade was formed by a group of farmers and locals who had been working together to protect their community from the threat of fire. In these early days these fire fighters were armed with only hand-pumps and a fuphy water cart as water supply. Sixty years and five fire fighting vehicles later and the Carlsruhe brigade has recently received an upgrade to their tanker, now a Hino 3.4C 4x4 crew cab (3750 litre water capacity).

Dignitaries including Mary-Anne Thomas MP, MRSC Mayor, Councillor Janet Pearce, CFA Officers and members from a number of local brigades attended the anniversary luncheon which provided an opportunity to reflect on the past and also recognise a number of members with Service Award medals: Barry Croft (10 years), Fire Fighters Dave Elliot (15 years) and Gavin Lester-Smith (40 years), National Medal recipients: Fire Fighters Hermann Marschall and Captain Peter Baldwin.

Kyneton Shed is humming.

Life is really humming at the Men's Shed.

The "Cooking with Tonia Todman and Friends" 10- lesson course is now more than halfway through and has attracted almost 30 participants, of whom the vast majority are men.

The 6-lesson woodwork course for women has now attracted sufficient attendees for three courses and the first one is well under way while additional courses are now being scheduled for late October - early November, and early 2020.

The Shed recently joined with the Woodend and Trentham Sheds to host each town's Masonic Lodges in an event that saw the Kyneton's Zetland and Kyneton Masonic Lodges each gift Kyneton Men's Shed \$5,000, while the other two Lodges each presented \$5,000 to their respective Sheds. The presentation also featured the Victorian Grand Master, Mr. Keith Murray. Shed chair, John Mitchell, thanked both Zetland and Kyneton Lodges, saying the funds would be used for the purchase of new equipment. Shed and lodge member, Brian Ward played a major role in assisting all three Sheds to receive the funding.

The Shed desperately needs another large centrally located storage area where it can easily keep items that it is given, such as desks, tables, chairs, lawn mowers, garden equipment, computers and workshop tools etc ready for sale.

People able to help should ring John Mitchell on 54226465.

Cr Anderson reports

Council knows that it can make your rates go further by giving some of them to community groups to hold events and festivals, along with specific community led projects.

Council recently announced the winners of these grants and the award ceremony is occurring on August 15. Congratulations to all successful recipients and those who made the effort to apply. I wish I could be there to help you celebrate, but I will be in Melbourne with my Loddon Mallee Waste group commitments.

Speaking of waste most of you would be aware of the closure of one of Victoria's recycling processors.

Macedon Ranges Shire Council, despite this closure, will always endeavour to find innovative solutions to continue to have your efforts in separating out your general waste from your recycling not being in vain. Please remember to reduce waste production, even of recyclables, in the first place.

Having written about Rates and Rubbish this only leaves me with Roads.

In response to your feedback Council will be looking further into the Kyneton Movement Network Study.

Thank you everyone for advising us of your concerns and where you thought more work was required.

Looking forward to seeing you all at the Daffodil and Arts Festival, when you know Spring has arrived in the Macedon Ranges.

Where else would you want to be?

Best wishes

Cr Jennifer Anderson,

Soup Kitchen

In recognition of Homelessness Week, last Thursday staff from Cobaw Community Health invited locals to the Mechanics Reserve in Kyneton to share a lunchtime meal of soup and bread.

Every year, the Housing team at Cobaw works with around 200 people from the Macedon Ranges, including around 50 people under the age of 25, assisting them to move from rough sleeping or crisis accommodation to more long-term housing.

"Homeless Week is an important opportunity to raise awareness of the impacts of homelessness in our community," said Cobaw's Manager of Housing Donna Bogdanovski.

"Factors such as family violence and family breakdown, rising rental costs, job insecurity and the lack of public housing are contributing to the increase in demand in our region."

Kerryn Wildenburg, Catherine Christmass, Simon Furness, Chris Cregan & Macedon Ranges Mayor Janet Pearce

Entertainment was provided by the Cobaw Ukulele Players and the With One Voice Central Victoria Choir – a local choir established at the beginning of the year which encourages people with no choral experience to enjoy the social and health benefits of singing.

Bluestone gutter review

In the curb and channelling section of the 2019/20 Macedon Ranges Shire Council budget it appears that further works on Kyneton's heritage bluestone gutters may be on hold pending development of a policy for bluestone assets.

Recent works on the town's bluestone gutters have generated controversy.

Other than being bluestone the Sturt St works generated gutters barely differing from ordinary curbing,

The gutters at the end of Yaldwyn St East have lost most of their semblance of heritage and the new Edgecombe St works, although much better than those in Yaldwyn St East, are rescued by their original backing stone uprights.

Kyneton Angling Club

The Kyneton Angling Club is upbeat about recent developments in this area.

"It's great time to be an angler in Victoria and Kyneton and District in particular. The opening up of the local lakes will be a fillip to the many keen and dedicated Anglers in our community.

"Coliban water should be commended on the many improvements they have made over the past few years: New parking, toilets, access roads and revegetation work.

"The VFA is also to be commended on its stocking and support of native and trout fisheries in the area and across Victoria" Angling Club President John Condliffe said.

"Fishing on these lakes by light craft, powered or not, will open up a new world of fishing possibilities and challenges. But, as always, it will be the dedicated committed fisher-person who will have most success and this type of fisher-person are also keenly interested in the environment and protecting the habitat they so enjoy" John said.

Macedon Ranges Wheelie Clean

Wayne Turner noticed the build up of decomposing waste sticking to the sides and to the bottom of his own wheelie bin, creating an ordinary smell. He then noticed that many of the towns commercial business and home bins were also in unhygienic condition. He decided to create a cleaning service that would rectify this problem.

In Wayne's research he found that it was environmentally harmful to clean your own bins and let the contaminated waste enter the storm water systems.

He designed and engineered a vehicle to carry out such a process, with its own water, using environmentally friendly products, and would collect the contaminates on site for correct disposal.

Wayne's process leaves your bins hygienically clean, dry and deodorized. His service can be ordered online www.mywheelieclean.com.au or call 0427506810 to discuss.

As an introduction and welcome to "Spring September offer" costs are \$10 per bin for business, \$5 per bin for home owners/tenants and a gold coin charge for pensioners.

Vandalism

Fears about potential vandalism in the Old Baynton Street Primary School were heightened last month with two separate incidents. Both resulted in the smashing of windows and breaking of bottles with glass strewn around the perimeter of the buildings and the school grounds.

Currently the broken windows are boarded up.

The Town Square Co-Op Board advise that they are currently negotiating with the Victorian School Building Authority to be allowed to replace the glass on behalf of the community. The cost of new safety glass is estimated to be less than one thousand dollars.

Board member Huntly Barton who heads up the Co-Op Maintenance Committee said, "The quick fix of boarding the broken windows is unsatisfactory as a deterrent to further vandalism. These buildings are an important and valued public asset and cannot be allowed to deteriorate".

The Co-Op have scheduled a working bee at 10am on Sun 1 Sept to clean up rotting autumn leaves and other rubbish about the site.. For further information go to kynetononline.org or phone Huntly Barton on 0408596847.

Hepatitis C Outreach Clinic

Austin Health, Kyneton District Health and Cobaw Community Health have launched a new Hepatitis C monthly Outreach Clinic in the Ambulatory Care Centre at Kyneton District Health in Caroline Chisholm Drive.

Hepatitis C is a blood-borne infection that damages the liver and causes liver cancer. Hepatitis C often doesn't have any symptoms and many people with Hepatitis C don't know they have it, so don't receive any treatment.

Most Hepatitis C cases can now be cured with an 8 or 12 week course of tablets with very few side effects. Austin Health is leading the way in treating people in our community with Hepatitis C and has now cured over 1000 people since the new Hepatitis C medications became available.

Local residents currently travelling outside of the region to attend Austin Health's Rapid Access to Hepatitis C Treatment Service will now be able to see a Gastroenterologist, Clinical Nurse Consultant and Clinical Pharmacist at Kyneton Hospital.

The Hepatitis C Outreach Clinic is Medicare bulk-billed. To find out more contact the Austin Health liver nurses on 0481909741.
